09 Thỏ Bảy Màu

The characters

Thỏ Bảy Màu cùng đồng bọn

Thỏ Bảy Màu

Thỏ không có bạn cũng không có cuộc sống. Nhưng Thỏ chưa bao giờ cảm thấy cô đơn. Vì thế sự cô đơn cũng bỏ Thỏ mà đi

Tuổi: 5 tuổi

Tính cách: Con ngoan trò giỏi, cháu ngoan Bác Hồ, hay phá đám và vùi dập nát bấy cảm xúc của mọi người

Ông Năm Hên

Ông nội của sấp nhỏ. Ai dám đụng tới cháu ông, ông livestream on-the-mic tới bến luôn

Tuổi: 70 tuổi

Tính cách: Có đầy đủ tính cách của một người quân nhân: Can đảm, uy tín, quyết đoán, cẩn trọng,...

Xô

Cute, bánh bèo, yêu cái đẹp và rất thích làm điệu

Tuổi: 17 tuổi

Tính cách: Vô cùng bánh bèo nhèo. Mê cái đẹp, ghét cái xấu

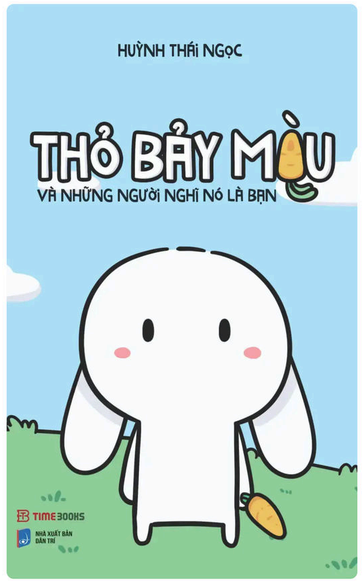

Gấu AK

Một đại ca giang hồ bất hảo trong khu vực của con Thỏ. Cùng với khẩu Aka nhặt được trong bãi rác, nó quyết tâm tàn phá hết những điều tốt đẹp xung quanh con Thỏ

Tuổi: 30 tuổi

Tính cách: Thích ghét tất cả mọi thứ. Vô cùng hung hăng và nguy hiểm. Có mối quan hệ yêu ghét mập mờ với con Thỏ Bảy Màu.

Comic books

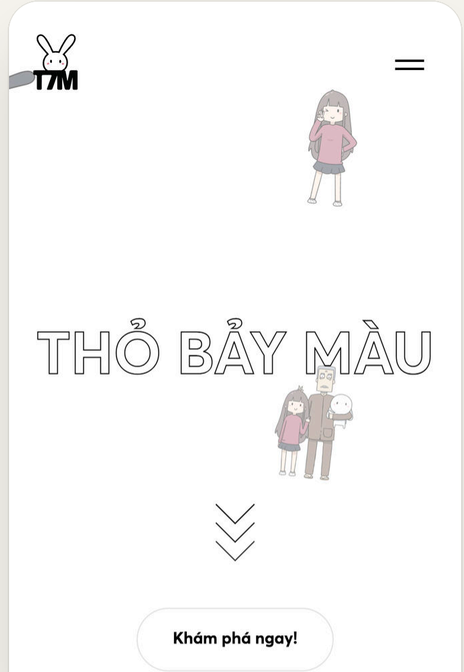

THỎ BẢY MÀU VÀ NHỮNG NGƯỜI NGHĨ NÓ LÀ BẠN

Thỏ Bảy Màu là một nhân vật hư cấu chẳng còn xa lạ gì với anh em dùng mạng xã hội với slogan "Nghe lời Thỏ, kiếp này coi như bỏ!". Nếu một ngày bạn lỡ cảm thấy buồn thì hãy đọc cuốn sách này để biết thế nào là cười sảng nha!

11

Outline CLI

Search and edit an Outline wiki from the terminal.

```
$ outline-cli --help

Usage: outline-cli [options] [command]

Agent-optimized CLI for Outline API

Options:
  -V, --version                output the version number
  -h, --help                   display help for command

Commands:
  profile                      Manage Outline profiles
  tools [options]              Inspect tool contracts and metadata
  invoke [options] <tool>      Invoke a high-level Outline tool
  batch [options]              Invoke multiple tools in one call
  tmp [options]                Manage temporary result files
  help [command]               display help for command
```

Role

Lead: workflow, review, testing

For agents

JSON results, summaries before full pages

Safety

Edits check the page revision first

github.com/khanglvm/outline-cli

12

Jira CLI

Work with Jira Server tickets from the terminal.

```
$ jira-cli --help

Usage: jira-cli [options] [command]

Direct, profile-aware Jira Server CLI for agents

Commands:
  profile                      Manage Jira workspaces/accounts
  tools                        Inspect Jira tool contracts
  easy                         Show quick agent recipes for common Jira work
  mine [options]               Quick list current user's unresolved issues
  search [options] [jql]       Quick search issues with useful daily filters
  show [options] <issueKey>    Quick show one issue.
  ticket                       Natural Jira ticket shortcuts
  label [options] <issueKey>   Quick add, remove, or set labels
  boards [options]             Quick list Jira Agile boards
  invoke [options] <tool>      Invoke one Jira tool
  batch [options]              Invoke independent Jira tools in one process
  …
```

Role

Lead: workflow, review, testing

For agents

JSON output, no MCP server needed

Safety

Every write starts as a dry run

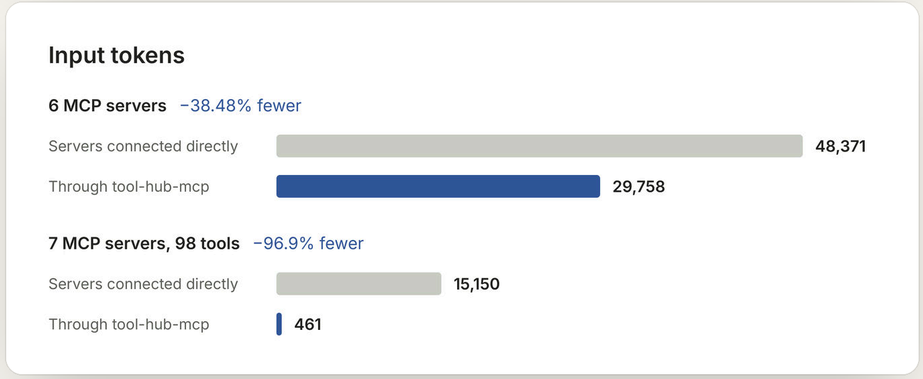

github.com/khanglvm/jira-cli

13

tool-hub-mcp

One MCP gateway that loads tools only when needed.

Role

Lead: design, benchmarks, review

Result

38% fewer input tokens across 6 servers

Timing

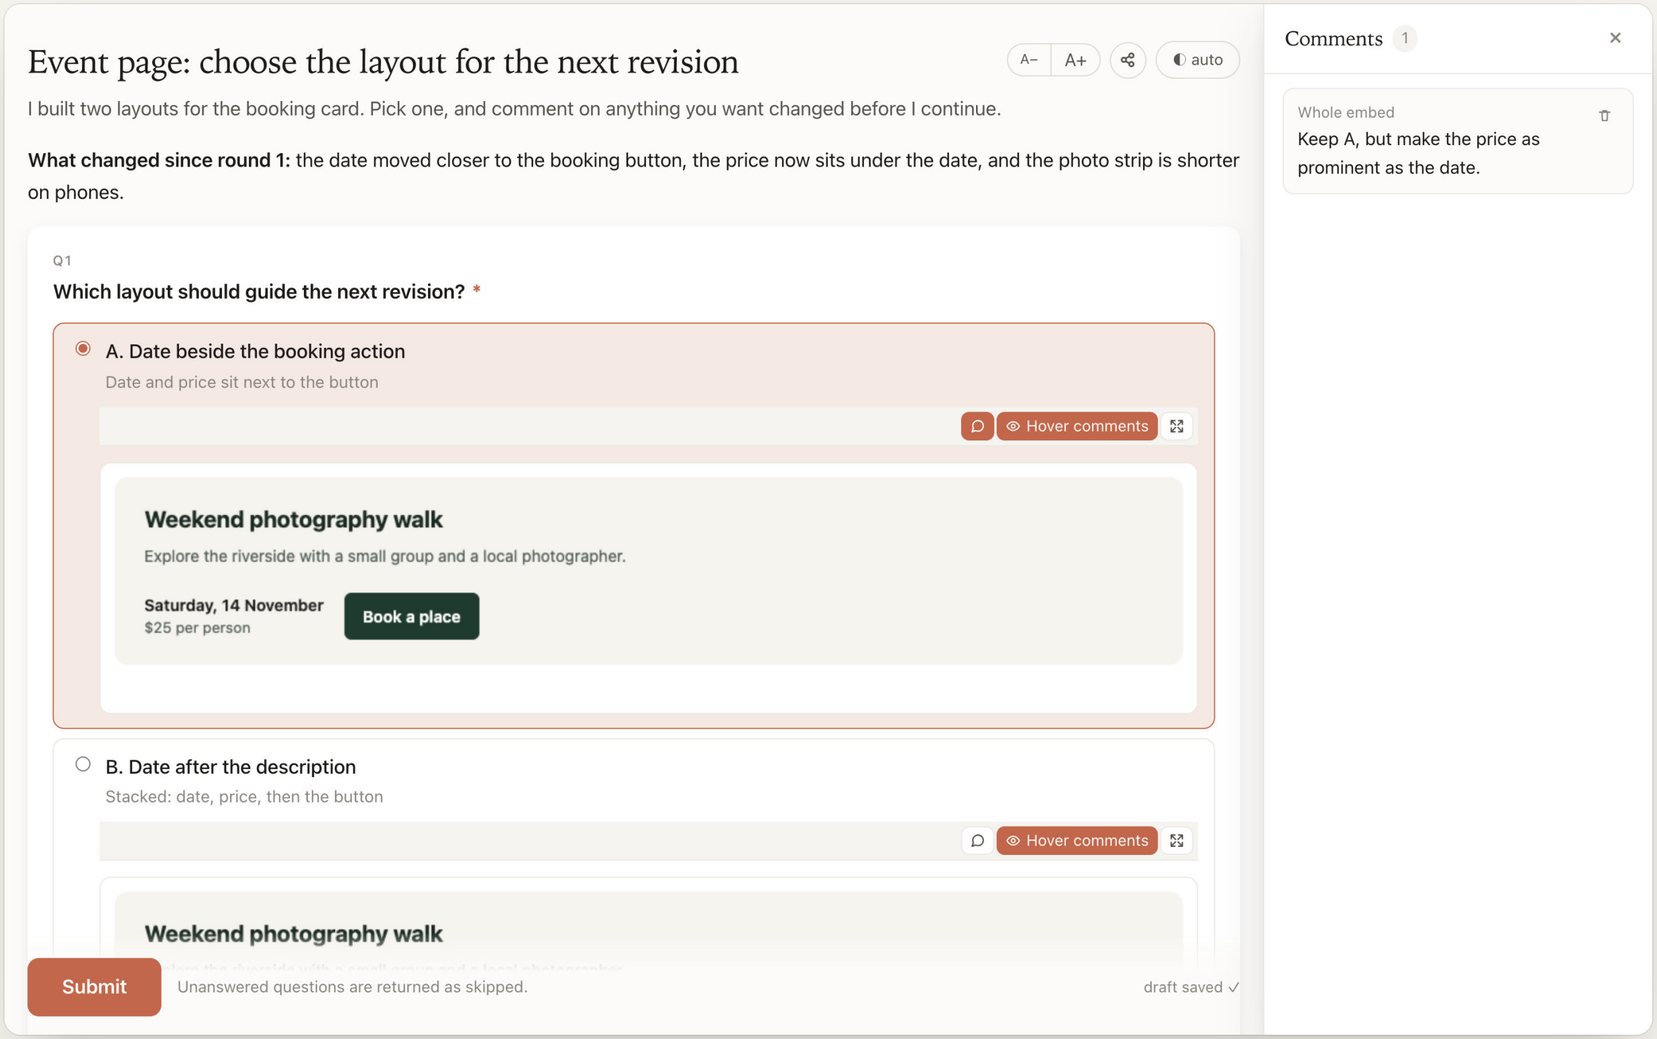

Built before clients added tool search

github.com/khanglvm/tool-hub-mcp

14

Relay

Boards where coding agents show work and collect feedback.

Role

Lead: review flow, feedback format, testing

For agents

Comments return as JSON with their target

Go with C. Put Blank list first so people who want an empty list don't have to scan past the templates.

agent 19:35

Moved Blank list to the first tile and kept the three templates after it. Updated preview is in the next round.

you 19:36

Good. Also show the task count on each template so the choice is quick.
